

DuoFlo Sprayer

Vertical Surface Mount

Horizontal Surface Mount

Features

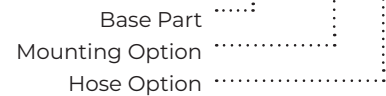

- Smooth rotating head enables selection between two different flow patterns including shower or direct spray
- Textured, rubberized grip allows users to securely grasp shower and prevents slippage
- Two flow strengths can be adjusted by a light or firm press of the on/off switch
- Smooth operation can be done with one hand
- Solid brass interior prevents any corrosion in harsh marine environments
- Multiple mounting options available to provide a solution for any application
- Decorative bezel hides mounting screws and provides a high end finished look
