

Snow Plow Headlights

Smart Sensor

Heat grid activates automatically only at temperatures below +5°C

Dedicated high and low beam LED.

Heated lens prevents snow and ice buildup.

HEATED LED SNOW PLOW HEADLIGHT

DEDICATED HIGH AND LOW BEAM LED

81092 Heated LED Snow Plow Headlight Kit

- Compliance: DOT FMVSS108 and CMVSS108
- Integrated heat grid
- Polarity: Reverse voltage protected
- Housing: Polypropylene | Lens: Polycarbonate
- Operating voltage 12Vdc
- IP68 / IP69K rating
- 1 year warranty

Heated Lens

HALOGEN SNOW PLOW HEADLIGHT

DEDICATED HIGH AND LOW BEAM

81091/2 Halogen Snow Plow Headlight Kit

- Compliance: DOT FMVSS108 and CMVSS108
- Polarity: Reverse voltage protected
- Housing: Polypropylene | Lens: Polycarbonate
- Operating voltage 12—24Vdc
- IP 68 & IP69K rating
- 1 year warranty

LED Strobe Beacons

- Available in Arc, Linear or Spot Beam
- Available in Red, Blue or Green Light
- Sold individually or in Combinations
- 10—80 V with Aluminum Housing, IP67 Rated

LED Work Lights

- Built to Withstand Tough Work Environments
- Die Cast Aluminum Housing & Polycarbonate Lens
- IP 68 & IP 69 Ratings
- Constant Current Circuit Draw

LED Light Bars

- Die-cast Aluminum Housing & Polycarbonate Lens
- 10" Double Row, 20 LEDs, 5400 Lumens
- 8" Single Row, 4 LEDs, 3400 Lumens
- 12—24Vdc and IP67 Rating

Backup Alarms

- Multiple Case Styles, Decibel Ratings & Operating Voltages
- Meet all SAE / DOT Compliance Requirements
- Epoxy Encapsulated Solid State Electronics
- Steam Cleanable

Thermal Circuit Breakers

- Available in Ratings from 25 to 300 AMPS
- Thermoplastic Material Case Enclosure
- Dustproof and Waterproof
- Visible Trip Indication

Quality OEM & Aftermarket Parts for the Snow Plow Industry
