WE SEE THINGS IN A DIFFERENT LIGHT.

Hamsar® creates custom lighting solutions for specialized vehicle markets through our deep engineering expertise and obsessive customer follow-through to elevate the vehicle experience.

ILLUMINATING IDEAS.

At Grakon Group, we believe in the power of lighting to transform the vehicle experience. We create innovative lighting solutions that provide a next-level environment within transportation, freight, specialized vehicles, recreation, and beyond. We're helping make our customers a little more successful, vehicles a little smarter, drivers a little safer and more comfortable.

ENGINEERING

Before beginning any new project, we listen to our customer's vision, and strive to bring that vision to reality. Product design and development is at the heart of everything we do. We identify success as a thoughtful balance of competing factors resulting in products that exceed customer expectations.

Our program management process considers every alternative, enabling us to deliver inventive solutions that delight vehicle owners and create OEM brand identity.

DESIGN AND DEVELOPMENT

Early in the design and development phase, our teams are proactively engaged to ensure that solutions are identified to make the seemingly impossible, possible. Our expertise covers a wide spectrum of design and development activities including:

- Industrial Design
- Mechanical Design
- Electrical Design
- Optical Design Simulation
- Thermal Analysis
- Finite Element Analysis
- Realistic Design Imaging
- Mold Flow Analysis
- Testing | Validation
- Rapid Prototyping
- CAD Modeling & Surfacing
- Regulatory Compliance
- Electronic CAD Interchange
- In-House CNC Mold Making
- Photometrics
- Advanced Product Quality Planning

CAD SUPPORT

Our innovative design team can produce native CATIA and Pro-E CAD data and regularly exchange data with customers and suppliers that use other CAD software by means of STEP and IGES files.

QUALITY

Full in-house testing facilities mean outstanding accuracy, efficiency and short turnarounds.

All design, production and delivery processes are governed by an ISO9001:2015 registered quality control system.

MANUFACTURING

We design and manufacture our lighting and electronic products at our facility located in Burlington, Ontario, Canada.

Through continued investment, our team continually analyzes and improves manufacturing standards in order to hone our process and yield optimal, tangible, measurable results.

- SMT Electronics Assembly
- Assembly
- Wire Harness
- Sonic Welding
- Wave Soldering
- PCB Populating
- CNC Potting | Adhesives
- Robotics

SHIPPING AND LOGISTICS

With a distribution centre in our Canadian Head Office and a second distribution centre in Temecula, California we have established ourselves as a reliable supplier of ISO quality products with an exemplary fill rate and a dependable shipping record.

CUSTOMER SERVICE

Our focus on providing our customers with the best possible service is evident in our:

- Field Support
- Service Scorecarding
- Annual Customer Survey
- Real Time Email

WORK LIGHTS

Robust design. Superior illumination. Long lasting.

Our LED work lights are ideal for heavy duty applications such as mining, construction, forestry, agriculture, military and off-road vehicles.

We offer a wide range of sizes, shapes and lumen output, designed to suit any lighting need.

50W	IP68	Heavy Duty Mount. Heavy Duty Equipment, Truck Body & Trailer

XWL-800 Series Work Light | 10 LED

- 2500 lumens
- Die cast aluminum housing, polycarbonate lens and high impact bezel - virtually unbreakable
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- 4 attachment points - if one attachment point fails due to a collision, rotate to the next channel point and re-mount the light
- Low current draw - energy efficient, save on fuel costs as it consumes less energy (22W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- 4 beam patterns - get light where it's needed for the job
- 50,000+ hours LED service life and 5 year warranty

C-Bracket

Swivel Bracket

Swivel Bracket Option

Allows 360° rotation plus 90° tilt forwards & backwards

"4 Lives in 1" Mount System

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	1.8A @ 12Vdc 0.9A @ 24Vdc
Power Consumption:	22W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP68 & IP69K
Weight:	2.2lbs (1.0kg)
Housing:	Die Cast Aluminum Alloy A380 Black E-Coat
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Connection:	6" Wire
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Mounting:	C-Bracket (Powder Coated Steel) Swivel Bracket (Zinc Dichromate Plating)
EMC Rated:	EMC EN 13309: 2010

XWL-800 Series Work Light | 10 LED | Soft Start

Soft Start Function - Gradual illumination allows eyes to adjust to the bright light, improving safety.

- Soft start function reduces the "in rush current", improving electronic component life and easing the load on existing wiring and battery
- 2500 lumens
- Die cast aluminum housing, polycarbonate lens and high impact bezel - virtually unbreakable
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- 4 attachment points - if one attachment point fails due to a collision, rotate to the next channel point and re-mount the light
- Low current draw - energy efficient, save on fuel costs as it consumes less energy (22W)
- Constant current circuit draw - light does not dim even if voltage fluctuates

- Constant current circuit draw - light does not dim even if voltage fluctuates
- 3 beam patterns - get light where it's needed for the job
- 50,000+ hours LED service life and 5 year warranty
- Electronic Thermal Management System - A built-in device that monitors and self-regulates the LED lamp case temperature, thereby reducing heat output which improves LED service life

U-Bracket

Connector Options

Tyco

Utilizes two quick-connect terminals protected with a rubber housing designed for applications on the engine, under the hood, on the chassis, or in the cab.

Deutsch

An environmentally-sealed 2-pin connector designed for applications on the engine, under the hood, on the chassis, or in the cab.

XWL-812 Select Series

Work Light | 6 LED

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	1.3A @ 12Vdc 0.6A @ 24Vdc
Power Consumption:	15W
Temperature Range:	-40°C to +60°C
Ingress Protection:	IP68 & IP69K
Weight:	1.5lbs (0.7kg)
Housing:	Die Cast Aluminum - Black E-Coat
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Connection:	Tyco or Deutsch
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Mounting:	U-Bracket
EMC Rated:	EMC EN 13309: 2010

XWL-812 Premium Series Work Light | 6 LED

12 - 76Vdc Operation - functions on a wide range of vehicles.

- 12 - 76Vdc operation - functions on a wide range of vehicles
- 1380 lumens
- Die cast aluminum housing & polycarbonate lens - virtually unbreakable
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- Low current draw - energy efficient, save on fuel costs as it consumes less energy (14W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- 3 beam patterns - get light where it's needed for the job
- 50,000+ hours LED service life and 5 year warranty

XWL-812 Series Work Light | 6 LED | Dual Intensity

DUAL
INTENSITY

Dual Intensity Function - Easily switch from 1500 lumen output to 3000 lumen output.

- Dual light output - 1500 lumen bright base LED to 3000 lumen super bright LED - switch activated
- Die cast aluminum housing & polycarbonate lens - virtually unbreakable
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- Low current draw - energy efficient, save on fuel costs as it consumes less energy (normal power level: 11W | power burst: 35W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- 3 beam patterns - get light where it's needed for the job
- 50,000+ hours LED service life & 5 year warranty
- Electronic Thermal Management System - A built-in device that monitors and self-regulates the LED lamp case temperature, thereby reducing heat output which improves LED service life

Grakon OEM Commercial Vehicle Back of Cab Light 4 LED

- OEM quality back of cab light - used throughout North America on commercial vehicles
- Long life - 60,000 hours of continuous operation
- Meets SAE back up requirements as a single light (system cost savings)
- Power 6W (12Vdc) - 80% improvement over incandescent equivalent light

Specifications

Operating Voltage:	12Vdc
Operating Current:	0.5A @ 12Vdc
Power Consumption:	6W
Light Source:	Long Lifespan Cool White LED 4 LED
Mounting:	Flush Mount Version: Direct Replacement to Incandescent BoC Lights Surface Mount Version: Minimize Required Cutout for Light Installation
Over Voltage:	Regulated Output to 16Vdc Protection to SAE J1455
Connection:	Integral Sealed Connector or OEM Specific Pigtail with Connector
Wire Harness:	6.5" (165mm)
Mating Connector:	Delphi #120662214

Part #	Beam Pattern	Lumens	Operating Voltage
81082	Flood	400	12Vdc

Easy-Grip Handles

- Easily installs on the following models:
XWL-800
XWL-810
XWL-812
XWL-813
- Allows for easy adjustment of light beam
- Allows for portability of work light
- Weather resistant

Part #	Description
98195	Easy-Grip Handle Black
98195/B	Easy-Grip Handle Blue
98195/O	Easy-Grip Handle Orange

LIGHT BARS

Wherever you're going, no matter what you're doing, our LED light bars will give you the light you need.

Ranging from 3400 to 25920 lumens, our LED light bars are powerful, durable and super easy to mount anywhere on your off-road vehicle.

Contents

Double Row Light Bars	55 - 58
Single Row Light Bars	59 - 64

Light Bar | Double Row

10" | 20 LED

Quality Tested - this product has been put through countless hours of testing and validation for environmental extremes, vibration, function and lifespan.

- 5400 lumens
- 3W LEDs - high intensity, low power consumption
- 6000K LED illumination - bright, crisp white light for enhanced nighttime visibility
- High lumen output - excellent for nighttime off-roading or in the darkest working environments
- Die-cast aluminum housing & polycarbonate lens - strong and durable for tough conditions
- IP67 - waterproof and dust protected
- Aluminum side brackets - easy to mount and install

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	5.0A @ 12Vdc 2.5A @ 24Vdc
Power Consumption:	60W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	6.4lbs (2.9kg)
Housing:	Die-Cast Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected

Power Consumption:	40W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	2.9lbs (1.3kg)
Housing:	Extruded Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected
Mounting:	Cross Slider, Multi-Angle Mounting Bracket (1 pc)

Part #	Beam Pattern	Lumens	Operating Voltage
81712	Flood	3400	12 - 24Vdc

Light Bar | Single Row

22" | 12 LED

- 10000 lumens
- Extruded aluminum housing & polycarbonate lens
- Cross slider, multi-angle mounting bracket

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	10.0A @ 12Vdc 5.0A @ 24Vdc
Power Consumption:	120W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	9.7lbs (4.4kg)
Housing:	Extruded Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected
Mounting:	Cross Slider, Multi-Angle Mounting Bracket (3 pcs)

Part #	Beam Pattern	Lumens	Operating Voltage
81714	Hybrid	10000	12 - 24Vdc

Light Bar | Single Row
26" | 14 LED

- 12000 lumens
- Extruded aluminum housing & polycarbonate lens
- Cross slider, multi-angle mounting bracket

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	11.6A @ 12Vdc 5.8A @ 24Vdc
Power Consumption:	140W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	11.5lbs (5.7kg)
Housing:	Extruded Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected
Mounting:	Cross Slider, Multi-Angle Mounting Bracket (3 pcs)

Part #	Beam Pattern	Lumens	Operating Voltage
81715	Hybrid	12000	12 - 24Vdc

Light Bar | Single Row

33" | 18 LED

- 15000 lumens
- Extruded aluminum housing & polycarbonate lens
- Cross slider, multi-angle mounting bracket

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	15.0A @ 12Vdc 7.5A @ 24Vdc
Power Consumption:	180W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	14.3lbs (6.5kg)
Housing:	Extruded Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected
Mounting:	Cross Slider, Multi-Angle Mounting Bracket (4 pcs)

Part #	Beam Pattern	Lumens	Operating Voltage
81716	Hybrid	15000	12 - 24Vdc

Light Bar | Single Row
40" | 22 LED

- 18000 lumens
- Extruded aluminum housing & polycarbonate lens
- Cross slider, multi-angle mounting bracket

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	18.3A @ 12Vdc 9.2A @ 24Vdc
Power Consumption:	220W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP67
Weight:	16.5lbs (7.5kg)
Housing:	Extruded Aluminum
Lens:	Polycarbonate
Connection:	Deutsch with Plug and Play Harness
Polarity:	Reverse Voltage Protected
Mounting:	Cross Slider, Multi-Angle Mounting Bracket (4 pcs)

Part #	Beam Pattern	Lumens	Operating Voltage
81717	Hybrid	18000	12 - 24Vdc

FORWARD LIGHTING

We carry a comprehensive line of LED and halogen forward lighting solutions for heavy duty trailers, buses, motor coaches, recreational vehicles, jeeps and snow plows.

Contents

LED Headlights	66 - 72
LED Fog Lights	73
Halogen Headlights	74 - 75
Snow Plow Headlights	76 - 77

90mm Low Beam LED Headlight Module

- Plug-and-play legal compliance
- Placed in a custom bezel, a module can create a completely styled headlight
- Best-in-class output and performance
- OEM grade specifications
- Projector-style low beam
- Functional in both 12V & 24V environments
- ECE & SAE compliant variants
- ECE-R10 compliant
- Common LH and RH mounting features

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	2600mA @ 12Vdc 650mA @ 24Vdc
Power Consumption:	22W
Temperature Range:	-40°C to +80°C
Weight:	Low Beam: 35.1oz (996g)
Source Lumen Output:	1400lm to 1700lm
Transient Susceptibility:	-450V (negative transient) 150V (positive transient)
Electrostatic Discharge:	± 15kV (on surfaces that are exposed during normal operation including service)
Electrostatic Discharge:	± 8kV (unpowered, all surfaces)
Compliance:	ECE and SAE

Part #	Description	Operating Voltage
76865	LED Low Beam 90mm ECE LHD	12 - 24Vdc
76867	LED Low Beam 90mm ECE RHD	12 - 24Vdc
76868	LED Low Beam 90mm SAE	12 - 24Vdc
98142	Adjustment Bolts	

90mm High Beam LED Headlight Module

- Plug-and-play legal compliance
- Placed in a custom bezel, a module can create a completely styled headlight
- Best-in-class output and performance
- OEM grade specifications
- Reflector-style high beam
- Functional in both 12V & 24V environments
- ECE & SAE compliant variants
- ECE-R10 compliant

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	2600mA @ 12Vdc 650mA @ 24Vdc
Power Consumption:	22W
Temperature Range:	-40°C to +80°C
Weight:	High Beam: 24.6oz (697g)
Source Lumen Output:	1400lm to 1700lm
Transient Susceptibility:	-450V (negative transient) 150V (positive transient)
Electrostatic Discharge:	± 15kV (on surfaces that are exposed during normal operation including service)
Electrostatic Discharge:	± 8kV (unpowered, all surfaces)
Compliance:	ECE and SAE

Part #	Description	Operating Voltage
76866	LED High Beam 90mm ECE SAE	12 - 24Vdc
98142	Adjustment Bolts	

90mm Low Beam LED Headlight Module

- Bright, white light - enhances illumination and reduces driver fatigue
- Total internal reflector - improves driver's visibility, enhancing safety
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- Extremely low current draw - energy efficient, save on fuel costs as it consumes less energy (13W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- Hassle-free installation - "drop-in" design easily replaces standard 90mm headlight systems without any need for retooling
- SAE / DOT compliant - compliant to US / CDN federal regulations
- 50,000+ hours LED service life & 3 year warranty

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	1.1A @ 12Vdc 0.5A @ 24Vdc
Power Consumption:	13W
Temperature Range:	-40°C to +65°C
Ingress Protection:	IP68 & IP69K
Weight:	2.0lbs (0.9kg)
Housing:	Die Cast Aluminum - Black E-Coat Black Polycarbonate
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Connection:	3 Position Connector
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Compliance:	FMVSS108 and CMVSS108
EMC Rated:	EMC EN 13309: 2010

Part #	Description	Operating Voltage
71075	LED Low Beam 90mm	12 - 24Vdc
98135	Adjustment Bolts	

90mm High Beam LED Headlight Module

- Bright, white light - enhances illumination and reduces driver fatigue
- Total internal reflector - improves driver's visibility, enhancing safety
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- Extremely low current draw - energy efficient, save on fuel costs as it consumes less energy (14W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- Hassle-free installation - "drop-in" design easily replaces standard 90mm headlight systems without any need for retooling
- SAE / DOT compliant - compliant to US / CDN federal regulations
- 50,000+ hours LED service life & 3 year warranty

Wire Harness Adapter

Each 165mm high beam headlight comes with a wire harness adapter that prevents vehicles with bulb outage warning indicators from engaging due to low current draw

Part #	Description	Operating Voltage
71078/1	LED High Beam 4" x 6"	12 - 24Vdc

90mm Bi-LED High and Low Beam Headlight Module

- Bi-LED high and low beam - one projector module with one light source for each side of the vehicle

Specifications

Operating Voltage:	12 - 24Vdc	
Operating Current:	Low Beam:	3.3A @ 12Vdc 1.7A @ 24Vdc
	High Beam:	4.2A @ 12Vdc 2.1A @ 24Vdc
Power Consumption:	Low Beam:	40W
	High Beam:	50W
Temperature Range:	-40°C to +80°C	
Ingress Protection:	IP68 & IP69K	
Weight:	2.9lbs (1.3kg)	
Housing:	Die Cast Aluminum - Black E-Coat	
Lens:	Hard-Coated Glass	
Connection:	Wire Harness with AMP Connector	
Compliance:	FMVSS108 and CMVSS108 ECE R10	

Part #	Description	Operating Voltage
71074	Bi-LED Low and High Beam 90mm	12 - 24Vdc
98143	Adjustment Bolts	

100mm LED Fog Light

- 5600K colour temperature - provides a crisp and cool white light output which enhances driver visibility, improving safety
- Advanced reflector technology - produces a uniform beam angle for wider field of vision, illuminating road markings more clearly
- Direct fit - designed for most modern fog lights, easy plug and play installation saves time
- Kit includes two lights, wire leads and mounting brackets

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	0.6A @ 12Vdc 0.3A @ 24Vdc
Power Consumption:	8W
Temperature Range:	-40°C to +80°C
Ingress Protection:	IP68
Weight:	0.6lbs (0.3kg)
Housing:	Die Cast Aluminum
Lens:	Polycarbonate
Connection:	Pigtail
Compliance:	SAE J583

Part #	Description	Operating Voltage
83235	LED Fog Light Kit 100mm	12 - 24Vdc

Low Beam Headlight | 90mm

- Chrome inner reflector design
- Three tab adjustment plus one mounting tab
- Includes an easy access / easy change H11 halogen bulb

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	4.6A @ 12Vdc 2.3A @ 24Vdc
Power Consumption:	55W
Bulb:	H11
Weight:	1.5lbs (0.7kg)
Housing:	Die Cast Aluminum - Black Alloy
Lens:	Hardened Glass
Compliance:	FMVSS108 and CMVSS108

Part #	Description	Operating Voltage
71057	Halogen Low Beam 90mm	12 - 24Vdc
85116	H11 Bulb 12V 55W	
98135	Adjustment Bolts	

Low Beam Headlight | 120mm

- Chrome inner reflector design
- Three tab adjustment plus one mounting tab
- Includes an easy access / easy change H11 halogen bulb

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	4.6A @ 12Vdc 2.3A @ 24Vdc
Power Consumption:	55W
Bulb:	H11
Weight:	2.3lbs (1.0kg)
Housing:	Die Cast Aluminum - Black Alloy
Lens:	Hardened Glass
Compliance:	FMVSS108 and CMVSS108

Part #	Description	Operating Voltage
71058	Halogen Low Beam 120mm	12 - 24Vdc
85116	H11 Bulb 12V 55W	
98135	Adjustment Bolts	

High Beam Headlight | 90mm

- Chrome inner reflector design
- Three tab adjustment plus one mounting tab
- Includes an easy access / easy change H9 halogen bulb

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	5.4A @ 12Vdc 2.7A @ 24Vdc
Power Consumption:	65W
Bulb:	H9
Weight:	1.0lbs (0.4kg)
Housing:	Die Cast Aluminum - Black Alloy
Lens:	Hardened Glass
Compliance:	FMVSS108 and CMVSS108

Part #	Description	Operating Voltage
71051	Halogen High Beam 90mm	12 - 24Vdc
85115	H9 Bulb 12V 65W	
98135	Adjustment Bolts	

High Beam Headlight | 120mm

- Chrome inner reflector design
- Three tab adjustment plus one mounting tab
- Includes an easy access / easy change H9 halogen bulb

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	5.4A @ 12Vdc 2.7A @ 24Vdc
Power Consumption:	65W
Bulb:	H9
Weight:	1.0lbs (0.4kg)
Housing:	Die Cast Aluminum - Black Alloy
Lens:	Hardened Glass
Compliance:	FMVSS108 and CMVSS108

Part #	Description	Operating Voltage
71055	Halogen High Beam 120mm	12 - 24Vdc
85115	H9 Bulb 12V 65W	
98135	Adjustment Bolts	

Smart Sensor - Heat grid activates automatically only at temperatures below +5°C.

- Combination headlight - dedicated high and low beam LED
- Integrated heat grid - prevents snow and ice buildup
- LED technology - crisp and clear light output
- Strong and durable - built for tough conditions
- Combination headlight - increases road illumination
- Visible park / turn signal light - improves road safety
- Pre-wired - easy to install
- Kit includes two lights, wire harness and mounting brackets

Specifications

Operating Voltage:	12Vdc	
Operating Current:	Low Beam:	1.0A @ 12Vdc
	High Beam:	1.3A @ 12Vdc
	Heat Grid:	1.0A @ 12Vdc
Power Consumption:	Low Beam:	12W
	High Beam:	16W
	Heat Grid:	12W (Maximum 24W)
Heat Grid:	Activated with Low Beam and/or High Beam at Temperatures Below +5°C	
Temperature Range:	-40°C to +65°C	
Ingress Protection:	IP68 & IP69K	
Weight:	5.5lbs (2.5kg)	
Housing:	Polypropylene	
Lens:	Polycarbonate	
Connection:	Universal Wire Harness	
Polarity:	Reverse Voltage Protected	
Vibration Resistance:	10-500Hz @ 5Grms	
Mounting:	U-Bracket	
Compliance:	FMVSS108 and CMVSS108	

Part #	Description	Operating Voltage
81092	LED Snow Plow Headlight Kit	12Vdc
10-1157NA	1157NA Bulb Amber	

Snow Plow Headlight

- Combination headlight - dedicated high and low beam bulb
- Strong and durable - built for tough conditions
- Combination headlight - increases road illumination
- Visible park / turn signal light - improves road safety
- Pre-wired - easy to install and easy bulb upgrade
- Kit includes two lights, wire harness and mounting brackets

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	4.6A @ 12Vdc 2.3A @ 24Vdc
Power Consumption:	55W
Temperature Range:	-40°C to +65°C
Ingress Protection:	IP68 & IP69K
Weight:	5.5lbs (2.5kg)
Housing:	Polypropylene
Lens:	Polycarbonate
Connection:	Universal Wire Harness
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Mounting:	U-Bracket
Compliance:	FMVSS108 and CMVSS108

81091/2	Snow Plow Headlight Kit	12Vdc
82091/2	Snow Plow Headlight Kit	24Vdc
85045	H1 Bulb 12V 55W High Beam	
85101	H7 Bulb 12V 55W Low Beam	
10-1157NA	1157NA Bulb Amber	

WARNING AND SAFETY

Designed with safety and awareness in mind.

Our warning and safety products are ideal for forklifts, utility vehicles or any equipment working in close proximity to pedestrians.

Contents

Safety Lights	79 - 83
Strobe Beacons	84 - 85
Back Up Alarms	86 - 91

LED Slim Strobe

- 3M adhesive - easy peel & stick application
- 6" wire lead - simple connection
- Completely sealed unit - waterproof
- Alternating flash patterns - highly visible, multiple configurations with up to 360° of lighting
- Multiple colours available

Specifications

Operating Voltage:	12Vdc
Operating Current:	100mA @ 12Vdc (average, flashing)
Maximum Current:	200mA @ 12Vdc
Power Consumption:	1.2W
Maximum Power Consumption:	2.4W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	2.3oz (65g)
Housing:	Black ABS
Lens:	Polycarbonate
Connection:	Terminal Wires
Mounting:	3M Double-Sided VHB Tape

XWL-812 | Blue LED Safety Light

- At 480nm, the blue LED forklift light is visible in warehouse environments, making it ideal for forklifts, load trucks, AGVs and other industrial vehicles used in close proximity to pedestrians
- Beam precedes vehicle by 16 feet (5 metres) - providing visual warning to alert pedestrians of approaching machinery before it is heard or seen
- Round beam pattern - blue round shape projected to the ground, alerts pedestrians of proximity to moving vehicle
- Versatile & compact design - only 4" x 4" and lightweight, mounts easily on the front or back of vehicle
- 12 - 48Vdc - can be used on heavy duty vehicles

U-Bracket

Specifications

Operating Voltage:	12 - 48Vdc
Operating Current:	0.8A @ 12Vdc 0.2A @ 48Vdc
Power Consumption:	10W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP67 & IP69K
Weight:	1.5lbs (0.7kg)
Housing:	Die Cast Aluminum - Black E-Coat
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Connection:	Tyco or Deutsch
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Mounting:	U-Bracket
EMC Rated:	EMC EN 13309: 2010

Part #	Connector	Lumens	Operating Voltage
82295/B	Tyco	150	12 - 48Vdc
82295/C	Deutsch	150	12 - 48Vdc

Connector Options

Tyco

Utilizes two quick-connect terminals protected with a rubber housing designed for applications on the engine, under the hood, on the chassis, or in the cab.

Deutsch

An environmentally-sealed 2-pin connector designed for applications on the engine, under the hood, on the chassis, or in the cab.

XWL-812 | Red LED Safety Light

- The red LED forklift light is visible in warehouse environments, making it ideal for forklifts, load trucks, AGVs and other industrial vehicles used in close proximity to pedestrians
- Beam precedes vehicle by 16 feet (5 metres) - providing visual warning to alert pedestrians of approaching machinery before it is heard or seen
- Round beam pattern - red round shape projected to the ground, alerts pedestrians of proximity to moving vehicle
- Versatile & compact design - only 4" x 4" and lightweight, mounts easily on the front or back of vehicle
- 12 - 48Vdc - can be used on heavy duty vehicles

Specifications

Operating Voltage:	12 - 48Vdc
Operating Current:	0.8A @ 12Vdc 0.2A @ 48Vdc
Power Consumption:	10W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP67 & IP69K
Weight:	1.5lbs (0.7kg)
Housing:	Die Cast Aluminum - Black E-Coat
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Connection:	Tyco or Deutsch
Polarity:	Reverse Voltage Protected
Vibration Resistance:	10-500Hz @ 5Grms
Mounting:	U-Bracket
EMC Rated:	EMC EN 13309: 2010

XWL-800 Series LED Flashing Amber Warning Light

- 2500 lumens
- Dual function light - work light and flashing amber functions:
 - 1) Wired to two switches
 - 2) One switch controls the steady white work light function
 - 3) One switch controls the flashing amber function (the amber light does not function at steady, only flashing)
 - 4) They can operate separately or together
- Die cast aluminum housing & polycarbonate lens - virtually unbreakable
- IP68 & IP69K - will withstand dust, dirt and sand, and is resistant to submersion up to a maximum depth of 1.5m underwater for up to thirty minutes
- 4 attachment points - if one attachment point fails due to a collision, rotate to the next channel point and re-mount the light
- Low current draw - energy efficient, save on fuel costs as it consumes less energy (22W)
- Constant current circuit draw - light does not dim even if voltage fluctuates
- 4 work light beam patterns - get light where it's needed for the job
- 50,000+ hours LED service life & 5 year warranty

C-Bracket

Accessories

HW02A	Hardware Kit C-Bracket
98195	Easy Grip Handle - Black Blue Orange (see page 53)

LED Liftgate Flasher

- Smart sensor technology - automatically triggers LED illumination in non-vertical orientation
- Bright flashing LEDs - raise pedestrian awareness in close proximity to vehicle
- One-time activation switch - simplifies the installation process as there are no wires to cut
- 3 LEDs - bright warning lights
- 52 flashes / minute - distinct and noticeable flash rate
- Long life battery - 5 years life based on normal usage
- Fully submersible - can be used in wet environments

Specifications

LEDs:	3
LED Colour:	Amber
Activation:	Non-Vertical Orientation Vertical OFF
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Battery:	Non-Replaceable 3.6Vdc Lithium-Ion
Battery Life:	5 Years (based on normal usage)
Mounting:	2 x 1/4" Screw Holes 50mm Apart for #8 Screws

Part #	Description

LED Strobe Beacon | Oval

- 12 -24Vdc - use on pick-up trucks, cars or heavy duty vehicles
- 23 built-in flash patterns - highly visible, multiple configurations with up to 360° of lighting
- Multiple unit synchronization - enhance visibility further with coordinated flash patterns
- Low profile design - provides more stability, better weight distribution and saves fuel
- Permanent mount or magnetic mount - allows for options to leave on, or switch between fleet vehicles

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	2.1A @ 12Vdc (varies with flash pattern) 1.0A @ 24Vdc (varies with flash pattern)
Max Current:	4.2A @ 12Vdc 2.1A @ 24Vdc
Power Consumption:	25W
Max Power Consumption:	50W
Temperature Range:	-50°C to +60°C
Ingress Protection:	IP69K
Weight:	2.8lbs (1.3kg)
Housing:	Black ABS
Lens:	Polycarbonate
Connection:	Permanent Mount: Wire Leads Magnetic Mount: 12Vdc Plug
Mounting:	Permanent or Magnetic
LEDs:	30
Colour:	Amber
Fuse Recommended:	8A
Compliance:	SAE J845 Class 1 CA Title 13

Part #	Description	Operating Voltage
81542	LED Strobe Beacon Permanent Mount	12 - 24Vdc
81543	LED Strobe Beacon Magnetic Mount with 2 Switch 12Vdc Plug	12Vdc

Split = left alternate right | All = all LEDs on

LED Strobe Beacon | Rectangular

- 19 built-in flash patterns - highly visible, multiple configurations with up to 360° of lighting
- Multiple unit synchronization - enhance visibility further with coordinated flash patterns
- Low profile design - provides more stability, better weight distribution and saves fuel
- Permanent mount or magnetic mount - allows for options to leave on, or switch between fleet vehicles

Specifications

Lumalarm LED Back Up Alarm

- Multi-functional back up alarm with flashing amber LED warning lights
- Night silent - alarm can be disengaged when in sound sensitive areas. Flashing amber LED warning stays on warning pedestrians of vehicle presence
- 200 lumen amber LED - provides bright visual warning of vehicle backing up in addition to audible alarm
- Wraparound LED lens - flashing amber LED warning is visible beyond 180° on either side of back up alarm, providing added safety
- ABS plastic housing - robust construction for heavy duty applications
- Epoxy encapsulated electronics - electronic components are protected against environmental elements

Specifications

Lumens:	200
Operating Voltage:	12 - 24Vdc
Operating Current:	500mA @ 12Vdc 250mA @ 24Vdc
Temperature Range:	-57°C to +67°C
Weight:	7.0oz (200g)
Housing:	Black ABS
Lens:	PMMA Clear Optical Grade
Connection:	5 Wires
Compliance:	SAE J994

Part #	dB Rating	Operating Voltage

Innovative and stylish design.

Our rear lighting products are ideal for buses, motor coaches, recreational vehicles, truck caps, utility vehicles, cargo vans and light duty trucks.

Contents

Tail Lights	93 - 98
Marker Lights	99
License Plate Lights	100
Third Brake Lights	101 - 103

LED Tail / Stop Light Red

- 16 LEDs - crisp, clear and high output illumination for increased visibility
- Metallized reflector - increased light output, better light control and reduced glare
- Built-in side reflex - enhanced visibility to oncoming traffic
- Sleek & stylish design - enhances the look of the vehicle with modern styling
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	16
Operating Voltage:	12 - 24Vdc
Operating Current:	Stop Light: 0.7A @ 12Vdc 0.4A @ 24Vdc
	Park Light: 50mA @ 12Vdc 25mA @ 24Vdc
Power Consumption:	Stop Light: 8W
	Park Light: 0.6W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Red
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84030	LED Tail / Stop Light Red	12 - 24Vdc

LED Tail / Turn Light Amber

- 16 LEDs - crisp, clear and high output illumination for increased visibility
- Metallized reflector - increased light output, better light control and reduced glare
- Built-in side reflex - enhanced visibility to oncoming traffic
- Sleek & stylish design - enhances the look of the vehicle with modern styling
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	16
Operating Voltage:	12 - 24Vdc
Operating Current:	Turn Light: 0.7A @ 12Vdc 0.4A @ 24Vdc Park Light: 50mA @ 12Vdc 25mA @ 24Vdc
Power Consumption:	Turn Light: 8W Park Light: 0.6W

84031	LED Tail / Turn Light Amber	12 - 24Vdc

LED Tail / Reverse Light White

- 16 LEDs - crisp, clear and high output illumination for increased visibility
- Metallized reflector - increased light output, better light control and reduced glare
- Built-in side reflex - enhanced visibility to oncoming traffic
- Sleek & stylish design - enhances the look of the vehicle with modern styling
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	16
Operating Voltage:	12 - 24Vdc
Operating Current:	Reverse Light: 0.7A @ 12Vdc 0.4A @ 24Vdc
	Park Light: 50mA @ 12Vdc 25mA @ 24Vdc
Power Consumption:	Reverse Light: 8W
	Park Light: 0.6W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Clear
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84032	LED Tail / Reverse Light White	12 - 24Vdc

LED Tail / Stop Light
Red

- 10 LEDs
- Includes grommet
- Corrosion proof, shock proof and watertight
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	10
Operating Voltage:	12Vdc
Operating Current:	0.3A @ 12Vdc
Power Consumption:	3W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Red
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84045	LED Tail / Stop Light Red	12Vdc

LED Tail / Turn Light Amber

- 10 LEDs
- Includes grommet
- Corrosion proof, shock proof and watertight
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	10
Operating Voltage:	12Vdc
Operating Current:	0.3A @ 12Vdc
Power Consumption:	3W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Amber
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84046	LED Tail / Turn Light Amber	12Vdc

LED Tail / Reverse Light
White

- 10 LEDs
- Includes grommet
- Corrosion proof, shock proof and watertight
- UV resistant polycarbonate lens - helps withstand the damaging effects of the sun and environmental elements

Specifications

LEDs:	10
Operating Voltage:	12Vdc
Operating Current:	0.3A @ 12Vdc
Power Consumption:	3W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Clear
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84049	LED Tail / Reverse Light White	12Vdc

LED Marker Light

- 2 LEDs
- Acrylic lens with reflex
- 2 screw, recessed mount

Specifications

LEDs:	2
Operating Voltage:	12Vdc
Operating Current:	80mA @ 12Vdc
Power Consumption:	1W
Lens:	Acrylic
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
99062	LED Marker Light Amber	12Vdc
99063	LED Marker Light Red	12Vdc

LED License Plate Light

- Conveniently mounts above license plate providing the necessary white illumination required by law
- Can be installed with or without black bezel (included)

Specifications

Operating Voltage:	12Vdc
Operating Current:	100mA @ 12Vdc
Power Consumption:	1.2W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP68
Weight:	1.3oz (36g)
Bezel:	ABS
Lens:	Polycarbonate
Connection:	Terminal Wires
Mounting:	2 Screws
Compliance:	SAE / DOT ECE

Part #	Description	Operating Voltage
82132	LED License Plate Light Black Bezel	12Vdc

Black Bezel Included

Can be installed with or without black bezel

LED Third Brake Light

- UV resistant for many years of outdoor use
- Flat adhesive back design makes for a tight seal

Specifications

LEDs:	9
Operating Voltage:	12Vdc
Operating Current:	0.2A @ 12Vdc
Power Consumption:	2W
Lens:	Automotive Grade Polycarbonate
Lens Colour:	Red
Connection:	60" Wire Lead
Compliance:	SAE / DOT

Part #	Description	Operating Voltage
84005	LED Third Brake Light	12Vdc

LED Third Brake Light | Back Up Camera

- High quality automotive grade camera delivers superior picture quality and a 170° viewing angle (50' wide by 20' deep), surpassing FMVSS111 requirements
- LEDs illuminate 200ms faster than incandescent bulbs, meaning faster braking distance response time
- Guideline enabled camera (red, blue, green and yellow lines) enhances driver rearview assistance and safety
- Night vision equipped for nighttime visibility and safety
- Waterproof camera with IP68 environmental rating
- Weatherproof CHMSL (IP65) with flat back is constructed with high quality automotive grade lens that will not fade, and meets FMVSS108 standard
- CHMSL #84198 includes both a back up camera and built-in exterior courtesy lights, for added safety and nighttime visibility when unloading or working outside the vehicle

Courtesy Lights

LED Third Brake Light | Back Up Camera

CHMSL Specifications

Operating Voltage:	12Vdc
Operating Current:	0.2A @ 12Vdc
Power Consumption:	2W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP65
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Compliance:	FMVSS108

Camera Specifications

View Angle:	170°
Night Vision:	Yes
Operating Voltage:	12Vdc
Operating Current:	110mA
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP68
Guidelines Enabled:	Yes

Monitor Specifications

Operating Voltage:	12Vdc
Screen Size:	7" with TFT Panel
Aspect Ratio:	16:9 Image
System:	PAL and NTSC Auto Switching
Overall Dimensions:	7.5" x 5.25" x 2.25"
Resolution:	800 x 480 (RGB)
Brightness:	450cd/m2
Guidelines:	Red, Blue, Green & Yellow
Speaker:	Built-In
Video Output:	Colour
Video Input:	2-Way Video Input with 2-Way Reversing Cable
Temperature Range:	-20°C to +70°C
Storage Temperature:	-30°C to +80°C
Mounting:	Includes Bracket Hardware
Extension Cable:	30' Industrial Grade PVC Jacketed Video Cable w/ Steel Shell Swivel Locking Connectors
Connector Cables:	Yes

LED Auxiliary Light Front Facing

- Illuminates the work area of a back door, side door or compartment, providing light where you need it
- 275 lumens
- 3M adhesive - easy peel & stick application
- 6" wire lead with delphi connector - 12Vdc operation and simple connection
- White, front facing LEDs - enhanced illumination
- Low profile design - fits anywhere
- Low power consumption - energy efficient while providing superior illumination
- 50,000+ hours LED service life

Specifications

Operating Voltage:	12Vdc
Operating Current:	0.2A @ 12Vdc
Power Consumption:	2.5W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Connection:	Delphi 2-Way (1204 7762)
Mounting:	3M Double-Sided VHB Tape

Part #	Description	Operating Voltage
80160	LED Auxiliary Light Front Facing LEDs	12Vdc

LED Auxiliary Light Down Facing

- Illuminates the work area of a back door, side door or compartment, providing light where you need it
- With the downward facing LEDs, the light is not shining in workers' eyes
- 375 lumens
- 3M adhesive - easy peel & stick application
- 6" wire lead with delphi connector - 12Vdc operation and simple connection
- White, down facing LEDs - enhanced illumination
- Low profile design - fits anywhere
- Low power consumption - energy efficient while providing superior illumination
- 50,000+ hours LED service life

Specifications

Operating Voltage:	12Vdc
Operating Current:	0.2A @ 12Vdc
Power Consumption:	2.5W
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Connection:	Delphi 2-Way (1204 7762)
Mounting:	3M Double-Sided VHB Tape

Part #	Description	Operating Voltage
80161	LED Auxiliary Light Down Facing LEDs	12Vdc

LED Tilt Light

- Battery operation - push button ON/OFF
- Automatically illuminates the work area of a compartment or tool box when the lid is opened
- 275 lumens
- 3M adhesive - easy peel & stick application
- Internal battery, non-rechargeable - no hard-wired connection
- White, front facing LEDs - enhanced illumination
- Low profile design - fits anywhere
- Low power consumption - energy efficient while providing superior illumination
- Long life battery - 5 years life based on normal usage

Battery Operation - non-replaceable 3.6Vdc lithium-ion.

Specifications

Activation:	Vertical Orientation Vertical ON
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Battery:	Non-Replaceable 3.6Vdc Lithium-Ion
Battery Life:	5 Years (based on normal usage)
Mounting:	3M Double-Sided VHB Tape

Part #	Description
80152	LED Tilt Light Battery Operated Front Facing LEDs

Battery Operation - non-replaceable 3.6Vdc lithium-ion.

LED Touch Light

- Touch activation - simple touch ON / touch OFF function
- Illuminates the work area of a back door, side door or compartment, providing light where you need it
- 275 lumens
- Velcro mount
- Internal battery, non-rechargeable - no hard-wired connection
- Glove touch - will activate while wearing gloves
- Auto shut off - light will automatically shut off after 5 minutes
- White, front facing LEDs - enhanced illumination
- Low profile design - fits anywhere
- Low power consumption - energy efficient while providing superior illumination
- Long life battery - 700+ ON / OFF cycles of 5 minutes

Specifications

Activation:	Touch ON Touch OFF
Temperature Range:	-40°C to +85°C
Ingress Protection:	IP69K
Weight:	1.9oz (55g)
Housing:	Automotive Grade Clear Polycarbonate
Battery:	Non-Replaceable 3.6Vdc Lithium-Ion
Battery Life:	700+ ON / OFF Cycles of 5 Minutes
Mounting:	Velcro (Included)

Part #	Description
80155	LED Touch Light Battery Operated Front Facing LEDs

LED Snake Light

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	130mA @ 12Vdc 65mA @ 24Vdc
Power Consumption:	1.5W Pin A Power Pin B Ground
Light Source:	Long Lifespan Warm White LED
Mounting:	Screw-In Surface Mount
Wire Harness:	5.9" (150mm)
Switch:	Push Button
Mating Connector:	Delphi #12129081 2-Way
Optional:	Mounting Clip for Parking the Neck

Part #	Description	Operating Voltage
80116	LED Snake Light	12 - 24Vdc

LED Dome Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	833mA @ 12Vdc
Power Consumption:	10W
Light Source:	Pin A Ground Pin B Power Pin C Empty Long Lifespan 16x LED High Output
Lens:	Milky White
Mounting:	Screw-In Flush Mount Cutout 20.2" (512mm) x 5.3" (134mm)
Wire Harness:	9.1" (230mm)
Mating Connector:	Delphi #1202397 3-Way

Part #	Description	Operating Voltage
80118	LED Dome Light	12Vdc

Courtesy Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	417mA @ 12Vdc
Power Consumption:	5W Pin A Power Pin B Ground
Light Source:	Wedge Base Bulb Type #193
Lens:	Milky White
Mounting:	Screw-In Surface Mount
Wire Harness:	17.7" (450mm)
Switch:	ON / OFF Rocker
Mating Connector:	Delphi #12034344 2-Way

Part #	Description	Operating Voltage
80119	Courtesy Light	12Vdc

LED Footwell Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	83mA @ 12Vdc
Power Consumption:	1W Pin A Ground Pin B Power
Light Source:	Long Lifespan LED
Mounting:	Flush Mount with Integrated Clip Feature Optional Screw Mount Bezel
Clip Tolerance:	3.2mm ± 0.5mm for 3.2mm Thick Panel
Mating Connector:	Delphi #12047662 2-Way

Part #	Description	Operating Voltage

LED Footwell Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	83mA @ 12Vdc
Power Consumption:	1W Pin A Ground Pin B Power
Light Source:	Long Lifespan LED
Mounting:	Flush Mount with Integrated Clip Feature Optional Screw Mount Bezel
Clip Tolerance:	3.2mm ± 0.5mm for 3.2mm Thick Panel
Mating Connector:	Delphi #12047662 2-Way

Part #	Description	Operating Voltage
80124	LED Footwell Light Red Lens Red LED	12Vdc

LED Ambient Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	3mA @ 12Vdc
Power Consumption:	0.04W
Light Source:	Pin A Ground Pin B Empty Pin C Power Long Lifespan LED Low Level Output
Mounting:	Screw-In Back Mount Cutout 0.5" (13mm) x 0.2" (4mm)
Mating Connector:	Delphi #12047781 3-Way

Part #	Description	Operating Voltage
80128	LED Ambient Light Red LED	12Vdc

Storage / General Purpose Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	125mA @ 24Vdc
Power Consumption:	3W
Light Source:	Wedge Base Bulb Type W3W
Mounting:	Flush Mount with Integrated Clip Feature
Clip Tolerance:	4.0mm ± 0.5mm for 4.0mm Thick Panel
Mating Connector:	Tyco #1-17183333-1

Part #	Description	Operating Voltage
80129	Storage / General Purpose Light Clear Lens	24Vdc

Compartment Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	1.0A @ 12Vdc
Power Consumption:	12W Pin A Power Pin B Ground
Light Source:	Standard T3 Miniature bulb, type #211-2
Mounting:	Screw-In Surface Mount
Wire Harness:	6.5" (165mm)
Switch:	ON / OFF Rocker
Mating Connector:	Packard #12034343 2-Way

Part #	Description	Operating Voltage
80117	Compartment Light	12Vdc

Swivel Reading Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	1.0A @ 12Vdc
Power Consumption:	12W
Light Source:	Wedge Base Bulb Type #922
Mounting:	Screw-In Flush Mount
Wire Harness:	4.3" (110mm)
Switch:	ON / OFF Rocker
Mating Connector:	Delphi #02977045 3-Way

Part #	Description	Operating Voltage
80130	Swivel Reading Light	12Vdc

Dome / Reading Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	1.0A @ 12Vdc
Power Consumption:	Dome 12W Reading 10W
Light Source:	Dome Bulb Type #211-2 Spot Bulb Type R10W
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 7.9" (201mm) x 2.4" (62mm)
Switch:	Push Button
Mating Connector:	Packard #12020397 3-Way

Part #	Description	Operating Voltage
80131	Dome / Reading Light Clear Lens	12Vdc

Double Dome Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	1.0A @ 12Vdc
Power Consumption:	12W
Light Source:	Dome Bulb Type #211-2
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 7.9" (201mm) x 2.4" (62mm)
Switch:	Push Lens
Mating Connector:	Packard #12020397 3-Way

Part #	Description	Operating Voltage
80132	Double Dome Light Clear Lens	12Vdc

Single Dome Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	1.0A @ 12Vdc
Power Consumption:	12W
Light Source:	Dome Bulb Type #211-2
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 3.1" (78mm) x 2.4" (62mm)
Switch:	Push Lens
Mating Connector:	Packard #12020397 3-Way

Part #	Description	Operating Voltage
80133	Single Dome Light Red Lens	12Vdc

Single Reading Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	833mA @ 12Vdc
Power Consumption:	10W
Light Source:	Spot Bulb Type R10W
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 3.1" (78mm) x 2.4" (62mm)
Switch:	Push Button
Mating Connector:	Packard #12020397 3-Way

Part #	Description	Operating Voltage
80134	Single Reading Light Clear Lens	12Vdc

Dome / Reading Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	625mA @ 24Vdc
Power Consumption:	Dome 15W Reading 10W
Light Source:	Dome Bulb Type T15X43 Spot Bulb Type R10W
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 7.9" (201mm) x 2.4" (62mm)
Switch:	Push Lens Push Button
Mating Connector:	AMP #8-968971-1 9-Way

Part #	Description	Operating Voltage
80135	Dome / Reading Light Clear Lens	24Vdc

Double Dome Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	625mA @ 24Vdc
Power Consumption:	15W
Light Source:	Dome Bulb Type T15X43
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 7.9" (201mm) x 2.4" (62mm)
Switch:	Push Lens
Mating Connector:	AMP #8-968971-1 9-Way

Part #	Description	Operating Voltage
80136	Double Dome Light Clear Lens	24Vdc

Single Dome Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	417mA @ 24Vdc
Power Consumption:	10W
Light Source:	Dome Bulb Type T15X43
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 3.1" (78mm) x 2.4" (62mm)
Switch:	Push Lens
Mating Connector:	AMP #8-968971-1 9-Way

Part #	Description	Operating Voltage
80137	Single Dome Light Clear Lens	24Vdc

Single Dome Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	417mA @ 24Vdc
Power Consumption:	10W
Light Source:	Dome Bulb Type T15X43
Mounting:	Recess with Integrated Clip Features for Panel Thickness Range 2 - 6mm Cutout 3.1" (78mm) x 2.4" (62mm)
Switch:	Push Lens
Mating Connector:	AMP #8-968971-1 9-Way

Part #	Description	Operating Voltage
80138	Single Dome Light Red Lens	24Vdc

LED Ambient Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	167mA @ 12Vdc
Power Consumption:	2W
Light Source:	Long Lifespan LED
Mounting:	Flush Mount with Integrated Clip Feature
Clip Tolerance:	38.5mm ± 0.5mm
Wire Harness:	3.9" (100mm)
Mating Connector:	Delphi #12047663 2-Way

Part #	Description	Operating Voltage
80139	LED Ambient Light White LED	12Vdc

LED Ambient Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	42mA @ 24Vdc
Power Consumption:	1W
Light Source:	Long Lifespan LED
Mounting:	Flush Mount with Integrated Clip Feature
Clip Tolerance:	38.5mm ± 0.5mm
Wire Harness:	6.3" (160mm)
Mating Connector:	Tyco AMP #953697-1 3-Way

Part #	Description	Operating Voltage
80140	LED Ambient Light White and Red LED	24Vdc

LED Ambient Light

Specifications

Operating Voltage:	24Vdc
Operating Current:	42mA @ 24Vdc
Power Consumption:	1W
Light Source:	Long Lifespan LED
Mounting:	Flush Mount with Integrated Clip Feature
Clip Tolerance:	38.5mm ± 0.5mm
Wire Harness:	13.0" (330mm)
Mating Connector:	Tyco AMP #953697-1 3-Way

Part #	Description	Operating Voltage
80141	LED Ambient Light White LED	24Vdc

Cabinet Light

Specifications

Operating Voltage:	12Vdc
Operating Current:	417mA @ 12Vdc
Power Consumption:	5W
Light Source:	Festoon Bulb Type #7575
Mounting:	Screw-In Surface Mount
Switch:	Plunger
Mating Connector:	Delphi #12047662 2-Way

Part #	Description	Operating Voltage
80146	Cabinet Light	12Vdc

LED Courtesy Utility Light

- 60 lumens
- Compact size
- Rugged design for exterior or interior applications

Specifications

Operating Voltage:	12Vdc
Operating Current:	0.1A @ 12Vdc
Power Consumption:	1.2W
Temperature Range:	-40°C to +50°C
Weight:	1.4oz (40g)
Housing:	ABS
Lens:	Polycarbonate
Connection:	Terminal Wires
Mounting:	2 Screws

Part #	Description	Operating Voltage
81196	LED Courtesy Utility Light Black Bezel	12Vdc

LED Courtesy Utility Light

- Very slim and compact
- Strong adhesive mounts to most surfaces

Specifications

Operating Voltage:	12Vdc
Operating Current:	27mA @ 12Vdc
Power Consumption:	0.3W
Temperature Range:	-40°C to +50°C
Weight:	0.8oz (23g)
Lens:	Polycarbonate
Connection:	Terminal Wires
Mounting:	3M Double-Sided VHB Tape

Part #	Description	Operating Voltage
81103	LED Courtesy Utility Light	12Vdc

LED Courtesy Utility Light

- Multiple applications - use for step lighting, under dashboard, dome light and cargo areas
- Rugged polymer housing - exterior or interior applications
- Polycarbonate lens - virtually unbreakable
- 3 screw mount - simple installation
- Low power consumption - energy efficient while providing superior illumination

Specifications

Operating Voltage:	12 - 24Vdc
Operating Current:	0.2A @ 12Vdc 0.1A @ 24Vdc
Power Consumption:	2.4W
Temperature Range:	-40°C to +65°C
Ingress Protection:	IP69K
Weight:	4.2oz (119g)
Housing:	Polymer
Lens:	Polycarbonate
Connection:	Terminal Wires
Mounting:	3 Screws

Part #	Description	Operating Voltage
81145	LED Courtesy Utility Light Black Housing	12 - 24Vdc
81146	LED Courtesy Utility Light White Housing	12 - 24Vdc

LED Dome Light

- Illuminates the work area of a back door, side door or compartment, providing light where you need it
- 90 lumens
- 12Vdc operation
- 3 position switch
- Low profile design - fits anywhere
- 2 screw mount - simple installation
- Low power consumption - energy efficient while providing superior illumination

Specifications

Operating Voltage:	12Vdc
Operating Current:	0.2A @ 12Vdc
Power Consumption:	2.5W
Temperature Range:	-40°C to +65°C
Ingress Protection:	IP69K
Weight:	2.0oz (57g)
Housing:	Polymer
Lens:	PMMA
Connection:	Delphi 2-Way (1204 7762)
Mounting:	2 Screws

Part #	Description	Operating Voltage
80115	LED Dome Light	12Vdc

LED Flex-Strip Light

- 420 lumens per metre
- Low power consumption - energy efficient while providing superior illumination
- 6500K - cool white light output
- Clear cut lines 2" apart - easily cut to any length required
- 3M adhesive - easy peel & stick application

Specifications (per 5m Reel)

Operating Voltage:	12Vdc
Operating Current:	2.0A @ 12Vdc
Power Consumption:	24W
Temperature Range:	-25°C to +60°C
Ingress Protection:	IP65
Weight:	6.0oz (170g)
Connection:	Terminal Wires
Polarity:	Reverse Voltage Protected
LEDs:	60 per Metre
Mounting:	3M Adhesive

Cut to Any Length Required

Need a custom solution?

Our in-house design and manufacturing team can custom tailor a flex-strip lighting solution to meet your needs. Our flex-strip lights can be customized for length requirements, mounting methods, connector needs... and more!

Just contact our sales team at **1.800.567.5483** to discuss your custom LED flex-strip solution.

High Output LED Flex-Strip Light

- 1200 lumens per metre
- Low power consumption - energy efficient while providing superior illumination
- 6500K - cool white light output
- Clear cut lines 2" apart - easily cut to any length required
- 3M adhesive - easy peel & stick application

Specifications (per 5m Reel)

Operating Voltage:	12Vdc
Operating Current:	5.0A @ 12Vdc
Power Consumption:	60W
Temperature Range:	-25°C to +60°C
Ingress Protection:	IP65
Weight:	7.9oz (223g)
Connection:	Terminal Wires
Polarity:	Reverse Voltage Protected
LEDs:	60 per Metre
Mounting:	3M Adhesive

Part #	Mount Type	Ingress Protection	LED Colour	PCB Colour	Length
81221	Adhesive	IP65	White	White	5m Reel

Cut to Any Length Required

Need a custom solution?

Our in-house design and manufacturing team can custom tailor a flex-strip lighting solution to meet your needs. Our flex-strip lights can be customized for length requirements, mounting methods, connector needs... and more!

Just contact our sales team at **1.800.567.5483** to discuss your custom LED flex-strip solution.

LED Strip Light

- Available in 13", 25", 38" & 50" lengths with 9 LEDs per 13" section
- PCB is protected with extruded polycarbonate sleeve
- 3M adhesive - easy peel & stick application

Specifications (per 13" Section)

Operating Voltage:	12Vdc
Operating Current:	150mA @ 12Vdc
Power Consumption:	2W
Temperature Range:	-40°C to +65°C
Ingress Protection:	IP68
Weight:	0.6oz (16g)
Connection:	Terminal Wires
Polarity:	Reverse Voltage Protected
LEDs:	9 per 13" Section
Mounting:	3M Adhesive

Part #	Mount Type	Ingress Protection	LED Colour	PCB Colour	Length
81226	Adhesive	IP68	White	White	13"
81227	Adhesive	IP68	White	White	25"
81228	Adhesive	IP68	White	White	38"
81229	Adhesive	IP68	White	White	50"

Need a custom solution?

Our in-house design and manufacturing team can custom tailor a flex-strip lighting solution to meet your needs. Our flex-strip lights can be customized for length requirements, mounting methods, connector needs... and more!

Just contact our sales team at **1.800.567.5483** to discuss your custom LED flex-strip solution.

Intelligent designs and user-friendly solutions for the passenger transport industry.

Our bus and rail products are supplied to specialized transport vehicle sectors including passenger rail, freight rail, bus, coach, light rail and tram.

Wireless Bell Push	127 - 128
Seatback Bell Push	129

Concept.

The 2.4Ghz wireless bell push uses radio transmission to communicate between a passenger bell push and the vehicle mounted receiver.

Conventionally, this would have been done by running cables around the vehicle, and connecting the passenger bell pushes to a central control unit. This process requires expensive labour and adds additional weight to the vehicle, and therefore additional running cost.

To overcome these disadvantages, the system uses a small radio transmitter mounted in each bell push and a single receiver to interface with the vehicle electrical system, thus eliminating the need for cables.

NO WIRES. NO BATTERIES.

This system features the latest technology operating within a globally accepted wireless transmission frequency.

The wireless bell push unit is designed to be mounted vertically or horizontally on the handrail of the vehicle.

The seatback wireless bell push unit can be mounted on the internal surface of a seat or the side panel of the vehicle, has a compact design and a 'universal' fit for various seatbacks. The simple screw fixing design extends the installation opportunities to the vehicle manufacturer.

Functionality.

When the bell push is pressed, the energy conversion device is triggered which generates a short pulse of electrical energy. This is sufficient for the radio transmitter to transmit a short telegram of information to the receiver.

On installation in the vehicle, each bell push is assigned to a specific channel on the receiver (wireless receiver modules are available in a standard 30 channel or a 100 channel receiver). When the receiver detects a bell push has been pressed, it sends a signal to the vehicle's electrical system giving details of the operation of a button being pressed and its location on the vehicle.

Each channel can be allocated to a specific zone on the vehicle, allowing the vehicle to be partitioned into separate areas. Typically, this would be upper deck, lower deck and wheelchair request.

Wireless Bell Push

The wireless and battery-less bell push uses radio transmission to communicate between a passenger bell push and the vehicle mounted receiver.

- Safety and rider experience disruptor
- Wireless and battery-less bell push - energy conversion technology
- 2.4GHz - a global ready frequency
- Eliminates the need for cables - no additional weight
- OEM benefit - no wiring installation in each bus, saving time and expense
- Eliminates long “vehicle off road” time in finding chaffed wire failures
- Single receiver to interface with vehicle electrical system - easily and quickly programmable (no software downloads)
- Unique 32-bit module identification code - no vehicle cross-talk
- Exclusive design - stylish slimline appearance

Part #	Description
30000	2.4GHz Wireless Bell Push Receiver Module 30 Channel
30004	2.4GHz Wireless Bell Push Receiver Module 100 Channel

Part #	Description	Button
30001	Wireless Bell Push Grey Housing Red Button	STOP

Seatback Wireless Bell Push

The wireless and battery-less bell push uses radio transmission to communicate between a passenger bell push and the vehicle mounted receiver.

- Safety and rider experience disruptor
- Wireless and battery-less bell push - energy conversion technology
- 2.4GHz - a global ready frequency
- Can be mounted on the internal surface of a seat panel
- Compact design with screw fixing offers flexibility for installation locations
- Eliminates the need for cables - no additional weight
- OEM benefit - no wiring installation in each bus, saving time and expense
- Eliminates long “vehicle off road” time in finding chaffed wire failures
- Single receiver to interface with vehicle electrical system - easily and quickly programmable (no software downloads)
- Unique 32-bit module identification code - no vehicle cross-talk

Part #	Description
30000	2.4GHz Wireless Bell Push Receiver Module 30 Channel
30004	2.4GHz Wireless Bell Push Receiver Module 100 Channel

Part #	Description	Button

ELECTRONICS

We design and manufacture a range of electronic products for multiple industries. This range includes relays, timers & delay modules, custom wire harnesses, terminals and switches.

Contents

Relays	136 - 137
Accessories	138 - 139

A relay is an electrically activated switch that shortens the distance current has to travel from the battery to whatever device is being powered. This ensures that the optimum amount of current is efficiently delivered to lights, horns, or any other accessory.

Consult the formula to determine what size relay you require:

$$\text{Total Watts} \div \text{Voltage} = \text{Required Amperage}$$

Step up one level from the indicated amperage load.

Eg. $2 \times 55 \text{ Watts} = 110 \text{ Watts} \div 12 \text{ Volts} = 9.17 \text{ Amps}$

Use a 20 Amp relay

- Solid state construction provides reliable long term operation
- Compact size fits into conventional ISO 5 pin socket
- Low power enable operation
- Fast turn on / shut off
- Water and dust protected

Part #	Description
41040	Solid State 12V 6A
41045	Solid State 12V 12A

Part #	Description
41055	Solid State 12V 20A
41060	Solid State 12V 40A

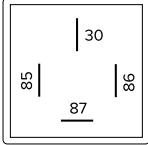

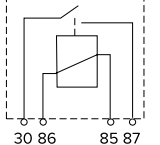

Part #	Description
41020	SPST 12V 40A Dual Output with Tab Bulk 10

Electromechanical Relays

Part #	Description		
41025	SPDT 12V 40A Bulk 10		
41030	SPDT 12V 40A Dual Output with Tab Bulk 10		

Part #	Description		
41065	SPST 12V 70A Heavy Duty with Tab		

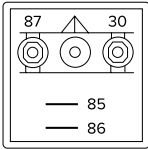

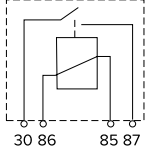

Part #	Description

42050	SPST 24V 60A Screw Terminals with Tab		

Part #	Description		
41201	Solenoid Relay Switch 12V 80A Heavy Duty with Grounding Lug		

Timer Module

Part #	Description
41105	30 Second Light Timer with Relay 12V

Magnet and Detection Switch Assembly

- Heavy duty, high vibration applications
- 500mA switch output
- N/C (normally closed) switch arrangement
- Easy installation requires 13mm drill hole
- Accepts a wide range of sheet metal thickness
- Fully sealed construction for humid locations
- Applications include: automatic light on / off, alarm detection, sensor distance detection

Specifications

Maximum Rated Voltage:	100Vdc
Maximum Rated Current:	500mA
Housing:	Black ABS
Wire Length:	12" (305mm)
Detection Range:	3/4" to 1"

Part #	Description
41094	Magnet and Detection Switch Assembly

Wiring Harness

- Can be used with any fog or driving light system
- Includes 40A relay, fuse and switch
- Wire length 96"

Part #	Description
98045	Heavy Duty Wiring Harness

In-Line Fuse Holder

Part #	Description
98030	In-Line Fuse Holder 10A 14 Gauge
98032	In-Line Fuse Holder 20A 14 Gauge

Terminal Block

- Works with any 5-pin relay

Part #	Description
98035	5 Wire 12 Gauge Pigtail 12"
98036	5 Wire 14 Gauge Pigtail 12"
98037	5 Wire 16 Gauge Pigtail 12"

Contents

Multisockets

141

12V Triple Multisocket

- Expands the number of power ports on your vehicle, allowing more equipment to be powered off its port adapters
- Hardwire installation - 36" wire leads with 15A in-line fuse
- Mounting accessories included - 2 screw mount
- Heavy duty construction - durable housing and individual socket dust caps

Specifications

Operating Voltage:	12 - 24Vdc
Connection:	36" Pigtail
Fuse:	15A In-Line Replaceable
Mounting Hardware:	2 Screws Provided

Part #	Description
98229	12V Triple Multisocket Permanent Mount

Hamsar®

A Methode Electronics Company

Limited One (1) Year Warranty

Hamsar products have been manufactured under the highest standards of quality and workmanship. The following warranty is exclusive and in lieu of all other warranties, whether expressed, implied or statutory with respect to or relating to any product shipped hereunder (the "Product"). Hamsar warrants that the Product is, at the time of shipment to the Purchaser, free of material and workmanship defects provided that there shall be no warranty with respect to any Product which has been repaired or altered in any way, which has been subject to negligence, accident, improper storage or damaged in shipment without the fault of Hamsar or has not been installed, used or maintained in accordance with normal practice and in conformity with the recommendations or the published specifications of Hamsar.

Hamsar shall, at its option, repair or replace any defective Product or refund the purchase price of a Product provided a warranty claim is made within one (1) year of the date of shipment of the Product and this shall be the full extent of Hamsar's liability for breach of warranty. Exclusions to this Policy are all bulbs fitted with all lamps and all replacement bulbs, which are not covered under this policy.

NON-DEFECTIVE PRODUCT RETURNS

Product returns (non-defective) must have been purchased in the current year from the current product catalogue and non-custom product. They must be in saleable condition (unopened cases). Returns are subject to a minimum restocking fee of 20%. More details are available on our current price list. Please contact hamsar.sales@grakon.com for further details.

Additional Exclusions to this Policy include the following:

- XWL-800, XTL-800, XWL-810, XTL-810, XWL-812, XWL-813 Series of Products – Limited Five (5) Year Warranty
- LED Headlights – Limited Three (3) Year Warranty
- All Bulbs – Limited Ninety (90) Day Warranty After Shipment Date

Proof of purchase (original sales receipt) must accompany all warranty claims. If you have any questions regarding technical support, installation or concerns regarding our warranty policy, please contact our customer service team at 1.800.567.5483 or e-mail us at hamsar.sales@grakon.com.

Fusing Statement

Hamsar lighting and electronic products must be fused appropriately in all instances. If you are in doubt, consult with a Hamsar service representative at 1.800.567.5483 or email hamsar.sales@grakon.com.

NOTE: Improperly fused / installed product will invalidate the warranty.

Call your local distributor
for more information.
