

How to specify a Standard Damper

Dampers come with 3 valve options

- D: Damping in both directions
- E: Damping in Extension only
- C: Damping in Compression only

Damping	Type	Force	#
Dual	D	Heavy	3
Extension	E	Medium	2
Compression	C	Light	1

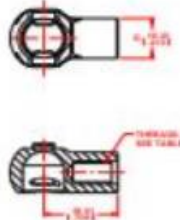

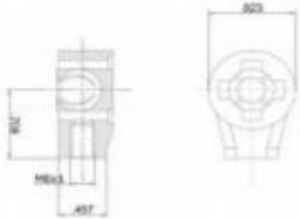

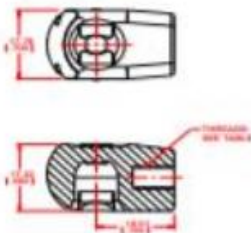

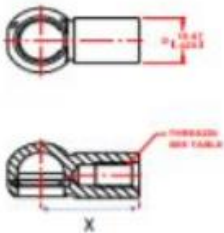

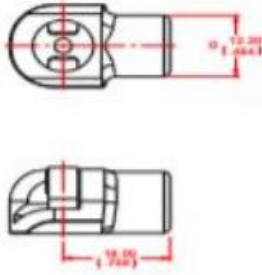

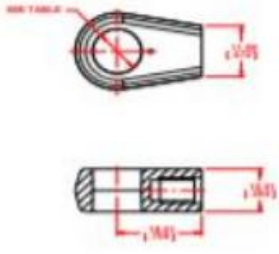

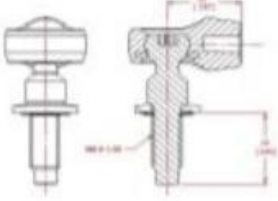

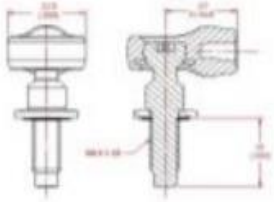

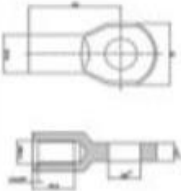

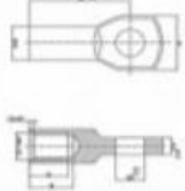

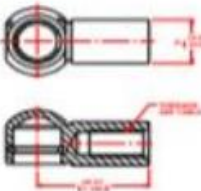

Each option can be purchased with light, Medium or Heavy damping.
For Dual damped parts you can have different forces in each direction.
